M meet the First Family of gear-driven rotary sprinklers for residential and light commercial irrigation. First because they've outsold and outperformed all others in their class since we introduced the original model in 1981.

By choosing these exceptional Hunter products, you're assured of durable, trouble-free rotary sprinklers with precision engineered nozzles for water-saving efficiency

and consistently beautiful results. You'll get no brown spots near the head or anywhere else, with evenly distributed water at a rate your soil can absorb. The PGP® is driven by today's most advanced technology, including the industry's best gear mechanism to provide you with years of flawless service. For a landscape of quiet beauty—and your peace of mind—why settle for second best when you can have the sprinkler by which everything else is measured.

Features & Benefits

Integral rubber cover with membrane covered sockets

Keeps dirt out, permanently installed

Through-the-top adjustment

Easiest to adjust, wet or dry

Quick check arc/fast forward

For quick verification of arc stop points

Complete set of interchangeable nozzles

20 standard or 7 low-angle nozzles

Factory installed nozzles available

Choose the convenience of pre-installed nozzles for large projects

Radius adjustment of up to 25%

Easy fine-tuning without changing nozzles

Reversing full-circle and part-circle operation in one unit

Hassle-free adjustment, 40° to 360°

Proven, long-life water-lubricated gear drive

First introduced over 20 years ago and still continuously improved (U.S. Patent numbers 4,568,024 and 4,718,605)

Advanced riser seal

Industry's most reliable and proven pressure-activated wiper seal

Large dirty water screen

Puts an end to nozzle clogging

PGP Blue Nozzles: Superior Coverage and Visual Appearance

Take a look and you'll see a better visual appearance that provides more even distribution, at both the close-in and mid-range areas... a superior scheduling coefficient that eliminates the problem of under- and over-watered areas of the landscape... as well as an intuitive numbering system for easy identification with each individual nozzle clearly marked with its flow rate (metric on the back of nozzle rack). The new PGP Blue Nozzles are just the latest example of Hunter's ongoing commitment to remaining the leader in the irrigation industry.
